

How to Install Podium Webchat on Your Website

Before website visitors can interact with you via Podium Webchat, you will need to add it to your website.

If you haven't already, copy the Webchat code to a clipboard.

To install the Webchat code on your website:

- 1. Sign in to your content management account.**
- 2. Find the HTML editor that lets you edit the contents of your site.**
- 3. Copy and paste the Webchat code snippet right before the `</body>` tag on each page you want the widget to appear.**
- 4. Save the changes.**

Attention: if you need additional help, visit Weebly's help center or email support@podium.com.
